Inventory for FOIA Request 2006-0460-F

Records on Robert (Bob) Boorstin

Extent
961 folders, 24,343 pages

Access
Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright
Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC 101) which governs the making of photocopies and other reproductions of copyrighted material.

Provenance
Official records of William Jefferson Clinton's presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed by
Staff Archivist, 2009. Previously restricted materials are added as they are released.

Scope and Content
The materials in 2006-0460-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

For a period of seven years Robert Boorstin served in the Clinton Administration in various capacities. From 1994 to 1995 he worked as President Clinton's chief speechwriter at the National Security Council, and afterwards was senior advisor to Secretary of State Warren Christopher and Secretary of the Treasury Robert Rubin. Recently, he co-founded the Washington based think tank Center for American Progress and advised many of the Fortune 500 CEOs. Currently Boorstin is Director of Corporate and Policy Communications in the Washington, D.C. office of Google.

FOIA request 2006-0460-F consists of speech drafts, newspaper and magazine articles, memos, correspondence, schedules, and handwritten notes. Most of the speech drafts contain much in the way of comments, additions, and deletions. Remarks by President Clinton, Anthony Lake, Samuel Berger,
and Warren Christopher can be found in the collection. Countries dealt with include Haiti, the Baltic States, Germany, Poland, and Indonesia. The value to the researcher in these materials is in the drafts and revisions many of the speeches went through.

**System of Arrangement**
Records that were responsive to this FOIA request were found in one collection area-Clinton Presidential Records: White House Staff and Office Files.

Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

As policy, Staff and Office Files are processed at the folder level. That is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
